

## Engine Oil Stop Leak

### Product Description:

Engine Oil Stop Leak is a combination of highly active ingredients which work together to prevent oil loss, reviving rubber and plastic seals and keeping them supple. Auto Profi Engine Oil Stop Leak is TUV certified effective and also:

- Maintains the viscosity of the engine oil
- Helps to prevent oxidation of the engine's oil which leads to buildup of harmful contaminants
- Reduces oil consumption at the piston rings

### Directions for Use:

**Use as needed** to prevent oil leaks.

1. Turn engine OFF.
2. Add one bottle to the oil system.
3. Drive as usual.

### Technical Specifications:

**Application Fields:** For all petrol (gasoline) and diesel engines

**Reaction Time:** Works during operation

**Consumption:** 250ml for 5 liter oil

**Packaging Units:** 250 ml

**Part Number:** 43223
