

Petrol System Clean

Product Description:

From the fuel tank to the combustion chambers, AutoProfi Petrol System Clean removes the contamination resulting from regular vehicle use which causes poor fuel economy and reduced engine performance. It also binds any moisture in the fuel system, safely removing it to prevent costly damage to fuel system components. Petrol System Clean extends the life of your vehicle's engine by:

- Removing gums and varnishes from the entire fuel system
- Removing carbon deposits and contamination in the combustion chamber
- Lubricating and protecting the fuel system
- Enabling clean, powerful combustion for improved fuel-efficiency

For use ONLY in vehicles with petrol (gasoline) engines.

Directions for Use:

Once every 6 months, add one can to your petrol (gasoline) fuel tank before filling up.

1. Begin with a near-empty fuel tank.
2. Open the cap on the fuel tank and pour Petrol System Clean into the tank.
3. Fill the tank with fuel and enjoy optimized fuel economy.

Technical Specifications:

Application Fields: For all petroleum gasoline fuel systems

Reaction Time: Works during operation

Consumption: 250ml for up to 15 gallons (60 liters) of gas

Quantity: 250 mL per bottle

Part Number: 43211
